I understand consumers are being encouraged to voice their opinion about the DOJ settlement with Microsoft. I believe that it is critical for the country to get past this whole mess. The suit was driven by Microsoft competitors that have failed to compete on price, performance or features. All they have left is litigation. It's a sad and disgusting comment on our government that it should be fooled by such tactics. Microsoft does more for this county in a week then Sun, Oracle or AOL do in a year.
